

## Hammer

**A game extremely popular with adults and children alike.**

The player uses the soft plastic hammer to hit the mice as they appear on the LED touch screen, as the game progresses the “little blighters” become harder to catch resulting in really good fun trying to achieve a score high enough to automatically dispense a premium quality prize capsule.

*PLEASE NOTE: There were no mice harmed during the making of this advert (well not many anyway)*

**Height** 1480mm

**Width** 780mm

**Depth** 950mm
